NEW FEATURE FOR THE LOCAL SCHOOLS

Physical Education to be Introduced in Grades and Junior High School With Special Instructor

ALBERT F. COTTON ENGAGED

Personnel of High School Faculty Completed With Exception of Junior High School Principal

A new feature will be introduced this year in the Rushville public schools, according to an announcement today by J. H. Scholl, superintendent, who stated that a teacher of physical education had been employed by the Rushville school board.

Albert F. Cotton, son of Mr. and Mrs. Cary Cotton of the Manila neighborhood, is the young man who will be in charge of this department. He will also be an assistant in the junior high school.

Supt. Scholl stated today that contracts had been signed for all of the members of the high school faculty with the single exception of Charles B. Bales, principal of junior high school last year, who rejected an offer to teach here another year. He will probably leave the profession and engage in other work.

E. B. Butler, former principal of the Carthage schools, has been engaged as high school history and civics instructor to take the place of Irvn T. Schultz who resigned to accept the principalship of the Mt. Vernon, Ind., schools. Mr. Shultz is spending the summer at Columbia university, New York City.

Sarah I. McConnel has been engaged as supervisor of music in the Rushville schools to succeed Miss Mabel Cornwell.

All other members of the high school faculty will be returned for another year, it is announced, but the personnel of the grade teachers has not yet been fully determined it is stated.

In connection with the announcement regarding the high school faculty, it was also intimated that the Rushville schools might be opened a week later this year. It has been the custom to start the school year the first full week of September, but the weather is generally very warm and other things interfere to such an extent that the school authorities are

OFFICER FIRES SHOTS AT MEN IN MACHINE

Willard Bennett and Harry Rainey Placed in Jail Following Episode Last Night

HEARING LATE TODAY

Willard Bennett and Harry (Hip) Rainey will be arraigned this afternoon at four o'clock in police court to answer to charges that will be preferred following an episode with the police last night about six o'clock, in which the police say the two men were intoxicated.

Rainey was driving an automobile and it is said attempted to run it on the sidewalk in the business district when Patrolman Nicholson stopped him. The machine then darted down West First street and came to a stop at Pearl, and Patrolman Nicholson was still in pursuit.

Here he fired several shots when the machine started to leave, and one of the bullets punctured a tire and another was imbedded in the machine. Patrolman Jenkins also arrived and the two men were taken to jail.

On the way to jail, it is said that Rainey struck Nicholson, and the police officer returned the attack with his mace which was broken, and he also drew his revolver, but the arrested man went on to jail.

A charge of intoxication will be placed against Bennett, it is said, and several charges will be preferred against Rainey, when they are arraigned this afternoon.

RUN DOWN BY AUTOMOBILE

Ermadelle Eaton Arlington Girl, Escapes With Slight Injuries

Ermadelle Eaton, little daughter of Mr. and Mrs. J. M. Eaton of Arlington, was run down by an automobile driven by Robert Gilson yesterday afternoon, on the main street in that town, and was slightly injured. The little girl was crossing the street in front of the postoffice in Arlington when the accident happened. It is said she stepped directly in the path of the machine and the driver could not avoid hitting the child. Little Miss Eaton sustained a badly cut lip, but otherwise was not hurt, except being frightened.

HOLDS GOVERNOR CAN BE ARRESTED

Judge Smith Says There is no King in Illinois and That Executive Can be Arrested.

WARRANTS MUST BE SERVED

Judge Tells Sheriff That he Must Perform His Duty When Warrants Are Given Him

(By United Press)

Springfield, Ill., July 26.—Judge E. S. Smith today held Governor Len Small amenable to arrest on warrants charging him with embezzlement of large sums of state funds.

Overruling contentions of Small's attorneys that the governor is immune from arrest by virtue of his office, Judge Smith held:

"There is no king in Illinois. The governor is liable to arrest."

The 75 year old barrister's eyes gleamed and his jaws came together with a snap. He ordered the clerk of the court to place the warrants for Small's arrest in the hands of Sheriff Henry Mester. Then for Mester's benefit, he quoted from the law to show that the sheriff must make vigorous efforts to serve the warrants or he will be liable for punishment for non-performance of duty.

Judge Smith held in his opinion that the governor will violate the laws should he carry out his threat of calling state troops to protect him from arrest.

"The governor," he declared, "has no right to call the militia for his personal protection."

When the judge finished reading his opinion, former Governor Joseph Fifer, chief counsel for Small, leaped to his feet and began an argument for postponement of service to give him and his associates more time to prepare their cases.

They asked that service of the warrants be withheld until September.

BEVER PAYS \$1 FINE IN CITY COURT TODAY

Tells Mayor Scudder Who Gave Him Drinks and Says That Liquor Was Doped

TRESPASS CHARGE IS FILED

Fred Bever appeared this morning before Mayor Scudder in police court to answer to a charge of public intoxication, following his arrest late Saturday night to which he entered a plea of guilty and was fined \$1 and costs which was stayed.

Bever told Mayor Scudder that he couldn't remember where he got the liquor, but on second thought told him that he was with two local young men who offered him the drinks. He said the liquor was doped.

Martin Clevenger was arrested on a charge of trespass and when he was arraigned before Mayor Scudder this morning he was granted a continuance. The charge was preferred by A. R. Herkless, who alleges that Clevenger was trespassing on his ground near the Mill race.

ASKS CONGRESS TO BROADEN POWERS

Harding Seeks More Power For War Finance Corporation to Relieve Agriculture

FOR RAILROAD RELIEF, TOO

In Short Message He Gives Bare Outline of Plans That He Wants Congress to Approve

(By United Press)

Washington, July 26.—President Harding today asked congress to broaden the powers of the war finance corporation so that it could give financial relief to the railroads and agriculture.

He made this request in a short message addressed to the senate and house of representatives.

Harding gave only a bare outline of the plans he wants congress to approve. Details will be given out later by the railroad administration.

The president, however, made clear these points of his plan:

That the war finance corporation be empowered to buy the railroad securities now held by the director general, so officials may have funds to settle with the railroads without dipping into the treasury.

That the power of the corporation be broadened so it could extend further relief to the live stock raisers and farmers.

Harding also revealed that to hasten settlement with the government railroads should waive their claim based on assertion that labor depreciated in value during government control and that the government should be asked. The waiver, however, will not prejudice their rights if they should take their claim to court.

He explained that the government owed the railroads and the road-owed the government and that settlement has been made for a claim totalling \$325,568,764.

Harding merely touched on the agricultural relief feature of his message. When the message reached congress, however, Senator Kellogg introduced a bill containing the administration plan. The Kellogg bill was designed as a substitute for the Norris foreign export bill which the senate has been considering.

The Kellogg measure provides one billion dollars' credit for th efarmers and it authorizes the war finance corporation to extend credit to the farmers and enable them to carry over surplus crops until a market is available for them.

Liberal terms for the repayment of government loans are also provided.

Report Shows That Chickens Had A Disease Called Coccidiosis

State Pathologist Gives Remedies Against Plague That Soon Kills off Young Chicks. Rush County Farmer Lost About 60 and Specimen was Sent in For an Analysis

Even chickens have troubles of their own. After a certain Rush county famer has lost 60 nice young chickens by some strange disease, County Agent D. D. Ball was called in to diagnose the case, and being unable to do so, sent one of the sickly chickens into the department of animal pathology at Purdue.

The chickens evidently had a dreadful disease, when the report came back thus.

"This chick showed indications of a protozoan disease known as coccidiosis."

According to the farmer who lost the chickens, the few weeks old chicks would simply lay around with their eyes shut, and gradually become weaker and weaker and then die.

There may be several chicken raisers in this county who have been having the same trouble, and for this reason R. A. Whiting, Animal Pathologist of the state university sent in several recommendations for fighting a plague of this kind among the chickens.

"This disease may be traced with any of the following plans his re-

TO KEEP CAREFUL WATCH ON PUPILS

New State Attendance System Will Make Truancy From Public Schools More Difficult

EFFECTIVE NEXT SCHOOL YEAR

Duties Are Enlarged and Take on Aspect of Social Service in The Community

The boy of school age who "cuts" his classes last year to go fishing or to play ball will find that truancy will be more difficult under a new attendance system which will be instituted with the beginning of the next school year. The last Indiana legislature enacted a law providing a new system for the appointment of attendance officers who will also have some duties in the nature of social service work.

The officers, under the law, must have completed the work of the elementary public schools; no equivalent is accepted. This rules out graduates of private and parochial schools. In addition to this, the applicants must pass the state examination unless they are high school graduates.

A list of those from any given county who have passed the examination is sent to the county superintendent of school, who adds to it his high school graduates, and then makes nominations to the county trustees. The officers are selected by the trustees, and are under the supervision of the county superintendent. Some counties will have only one, some more, according to population. When the appointments are completed there will be between 125 and 150 officers.

The Rush county board of education, composed of the township trustees, has already appointed a truant officer, James G. Miller having been reappointed last month when Wagoner was elected county superintendent of schools to succeed C. M. George.

The new law provides that the county attendance officer shall be a full time official. For years Mr. Miller has been devoting practically all of his time to the office and has had an office in the court house beside the county superintendent. He also works as juvenile court officer and assists Judge Will M. Sparks in the juvenile court work. Mr. Miller's salary was also increased under the new law. If a child, who was absent yesterday, does not appear today with an excuse, the attendance officer

NO TRACE FOUND OF DR. STONE AND WIFE

Searchers Continue Scouring Mountains in Vicinity of Mount Assinboine, Canada

INDIANA COUPLE MISSING

(By United Press)

Banff, Alta., July 26.—Searchers scouring the mountains in the vicinity of Mount Assinboine up to an early hour today had found no trail that would lead them to Dr. Stone, president of Purdue University, Lafayette, Indiana, and his wife, who left the Mount Assinboine club here July 17, to traverse the surrounding hill country.

Stone and his wife had with them but a four days food supply and when, at the end of the fourth day they did not return to the camp, searchers set out to find them.

The only clew so far was discovered Sunday afternoon when a searching party came upon some toilet articles bearing the initials of Mrs. Stone. These were found at the base of Mount Eanon. It is not thought that they have attempted this peak, as it has been unsealed even by parties well supplied with food and experienced guides.

ANOTHER CLINIC TO BE HELD HERE

One Similar to That Arranged by Woman's Council in Spring Will be Conducted in September

DR. M'KANE NOT INTERESTED

Another tuberculosis clinic will be in Rushville in September, it was announced today by the Rushville Woman's Council, under whose auspices a clinic was held last spring. It will probably be about September 15, although the date has not been definitely determined.

The success of the clinic here last spring has moved the Indiana State Tuberculosis association to heed the request of the Woman's Council for another clinic to follow up the work started by the first one. Dr. James L. Stygall, who was assigned here for the clinic, found a ready response among local people afflicted with the disease and also received the hearty co-operation of local physicians.

In this connection, the Woman's Council also pointed to a mistake made in Monday evening's Republican in which it was stated that Dr. H. W. McKane, who has recently been dismissed as chief of the tuberculosis division of the state board of health, arranged for the last clinic here. Instead, the clinic was arranged by the state tuberculosis association, of which M. A. Auerbach is president.

TO OPPOSE LOWER TAXES

Profitable Business Will be Fought by Farmers.

(By United Press)

Washington, July 26.—Representatives of the farmers' organization today gave notice to the house ways and means committee on opening hearing on the tax revision that the agricultural interests will fight reduction of taxes now imposed upon profitable corporations and wealthy individuals.

H. C. McKenzie Walton, New York, tax representative of the American farm bill federation said his organization is opposed to abolition of the excess profit tax and the shifting of the burden to the poor. He also stated that the farmers opposed the reduction of the sur tax rates and a substitute for the consumption or sales tax.

UNDERGOES OPERATION

M. H. Walker of this city who has been ill for some time, underwent an operation Monday at the St. Vincent Hospital in Indianapolis. He is reported to be getting along as well as could be expected.

TO DEMONSTRATE VALUE OF DOLLAR

Rushville Business Men Will Hold Another Dollar Day Thursday to Show "Iron Man" is Grown up

BUSINESS OUTLOOK BETTER

Feeling of Optimism is Based on Several Substantial Economic Facts, Red Line Points Out

To demonstrate that the United State dollar has again attained its full size and in many respects has become overgrown the merchants of Rushville will hold another Dollar Day on Thursday. These sales have been frequent during the past spring and summer and the way they have been patronized has influenced business men to repeat them.

With the harvest over, merchants feel that farmers will be better prepared to take advantage of such bargains as Dollar Day offers. After two years of the highest prices in the history of the country, patrons of local stores are going to be immensely surprised, merchants say at what can be purchased for one lonely "iron man".

Adjustments are taking place in the business world and new price levels are being reached, commensurate with the values which are offered. Business men are anticipating a period of stability from now on because the business outlook is growing brighter daily.

This is reflected by collections, they say, which are better than they have been for several months.

This same opinion is reflected in the current review of business conditions in territory adjacent to the Indianapolis and Cincinnati traction line, which is published in the Red Line, a publication issued by the I. & C.

This review says that just now the prevailing opinion as to the business outlook is one of optimism, whereas six months ago bankers and business men generally were saying of the situation, "It will be worse before it is better". The feeling of optimism is based on several substantial economic facts which are pointed out as follows by the Red Line:

In the first place, despite the long, hot, dry spell, crops will be good. The wheat yield in Indiana has been satisfactory. The average yield may not be as high as it has been in past

Continued on Page Three

TWO HARVEST HANDS CLASH IN ARGUMENT

J. W. Beaver Suffers Broken Nose When he and Fred Mosburg Fight—Charges Filed

MILLER CASE IS CONTINUED

As the result of a fistic encounter in a harvest field near New Salem yesterday, John W. Beaver sustained a broken nose, when he said he was struck by Fred Mosburg, another thresherman, when the two men disagreed over an argument.

Beaver came to Rushville and had his nose set, and appeared before squire Stech where he said he desired to enter a plea of guilty to assault and battery on Mosburg. He paid a fine of \$1 and cost, and in turn filed two charges against Mosburg, one being for assault and the other for provoke. The case against Mosburg had not been settled today.

Herschell Miller, against whom an affidavit was filed charging him with forgery, was granted a few days more in which to make the payment of the alleged bad check. The name of a relative was said to have been used, which accounted for the matter being continued.

Arthur Snider has filed suit against Edward Willis the action being to collect on an account in which \$15 is demanded. Squire Stech has set the case for trial on July 30 at two o'clock.

WOULD DISCONTINUE BUILDING HOSPITALS

Dr. Hurty Believes People Spend Too Much Money Curing Disease Instead of Preventing It

FAVORS EXTENSION OF WORK

(By United Press)

Indianapolis, Ind., July 26—A campaign to discontinue the building of hospitals in Indiana will be inaugurated by Dr. J. N. Hurty, secretary of the state board of health, it was announced today.

"What are we going to do if the hospitals are done away with?"

"This will be the question that every person in the state will ask. I will answer this by saying that we should place more of our time in preventing disease than we should in curing it," said Dr. Hurty.

"People today are spending too much of their time and money in curing disease, when they should use it to prevent it. Years ago, people would say that there was no cure for tuberculosis. Yet at present we have a cure for this disease.

"Years and years ago, it was said that to operate on a person for appendicitis would put them in their grave. We now operate and have almost a way to prevent appendicitis."

Dr. Hurty favors extension in the prevention work to a great extent rather than place this money in a curative fund, to be used for curative purposes only.

"As soon as we can learn that an ounce of prevention is worth a pound of cure we will be much better off," Hurty concluded.

WOAN HELD WHEN AN TAKES FLIGHT

Elizabeth Thompson Employee of Bank Gets Away With \$1,500-100, Detained by Police

DEIES ANY CONNECTION

Chicago, July 26—Miss Elizabeth Thompson was held by authorities today in connection with their investigation of flight of Warren Spurgin, head of the Michigan Avenue Trust Company, after a \$1,500,000 shortage in the bank's accounts was discovered.

Miss Thompson, pretty employee of the American Discount Co., a concern operated by Spurgin in connection with his banking business, was taken to the detention home after four hours' questioning by investigators. She was accused of concealing information regarding the missing banker.

Thompson returned to the Plymouth hotel where she had lived after an absence of several days when authorities had been trying to find her.

"I am not an intimate friend of Mr. Spurgin. I knew him only in passing," Miss Thompson said.

Authorities claimed they had information that Miss Thompson was often seen in company with Spurgin.

UNREST PREVALENT AMONG JAPANESE

Growing Disregard for Government Authority is Showing up in Japan Now

INCLUDES LABOR, STUDENTS

Both Classes Seem to Show Unrest and Take Socialistic Attitude on Things

By HENRY W. KINNEY,
(U. P. Staff Correspondent)

Tokio (By Mail)—After the great crop of strikes and other labor difficulties which culminated during the war years of prosperity, when the supply of labor was so far short of the demand that the workmen were able to enforce almost the demands they saw fit to make, the period following the slump which began in March of last year was remarkably free from strikes. Unemployment became so common that workmen were afraid to lose their jobs, as they knew they could easily be replaced.

During recent months, however, strikes have become common again, and the movements of the workmen are marked by a growing desire for what they call "direct action". While this term, as used here, is not as sinister as might be believed, it is evident that the workers are showing a tendency towards opposition to constituted authority, and the police authorities are worried considerably thereby.

Socialists gatherings are constantly being broken up, although they appear to be no more dangerous than are many such movements which are allowed to pass unchallenged elsewhere, and socialists and labor leaders often find themselves under watch by detectives and are frequently halted to police stations for explanations. In Osaka the electric light station workers recently went on strike, leaving the Chicago of Japan in darkness, and several clashes occurred between thousands of strikers and their sympathizers with the police, in the course of which many were injured. The red flag is often displayed and the old-time feudal respect for the police is rapidly disappearing.

The unrest and growing disregard for Government authority is also showing up conspicuously among the students of various institutions and strikes on the part of student bodies have been frequent.

While all these movements, both of students and laborers, are not as yet dangerous in themselves, they indicate plainly a steadily swelling tide of unrest, but while the authorities are only too well aware of this the means of which they take to stem it have so far been utterly ineffectual.

TO DEMONSTRATE VALUE OF DOLLAR

Continued from Page One

years, but considering changed market conditions, the crops appear to be all that could be expected. One report from Waldron says that William J. Bogeman thrashed a field that tested 23½ bushels per acre and scales 60 pounds. A field of 32 acres averaged better than 20 bushels. A report from Rushville speaks of high yields in Rush county.

Reports on the corn crop are to the effect that the crop will be good if rain is forthcoming. Live stock shipments on the Red Line indicate that the stock business is as good as could be expected. These things go to show that the fundamental business of the country, which is the production of food, is on a sound basis.

Banks report that merchants everywhere are liquidating their stocks and getting down to a sensible basis. Instead of holding out for high prices on goods bought during the war they are selling these goods at present day figures and restocking with goods than can be sold at moderate prices at a far profit. This is true in all the cities on the Red Line. Shelbyville, for example, last week staged three big bargain days, by means of which the merchants hoped to clean out their stocks at a sacrifice, as their part of the movement toward normal.

Greensburg and Rushville have conducted the same kind of bargain sales days, with success. The merchants have found that the people will buy when they think prices are fair. At Connersville, business is reported as improving. The automobile manufacturing business there is prosperous and all the lines of business connected with the automobile are said to be doing well. The furniture makers are getting busy again

The Chautauqua

Once more we approach the season of the chautauqua, the time for mental refreshment and enjoyment, the time when the grain is harvested and the farmer has a few days of grace before the fall work begins in the country.

The Rush county chautauqua, which will be held this year from August 7 to 14, inclusive at the coliseum in the city park, makes a bid for a record attendance because of its merit. The talent as a whole is better than usual and offers eight days of enjoyment, a wide variety of lectures by men of prominence from all parts of the United States.

Included on the program are some of the greatest preachers in the world, who will bring messages on

world problems, and still others who have attained prominence in one particular line of endeavor. The musical part of the program this year likewise is of high quality, including light opera companies, a band and many talented artists both vocal and instrumental.

The program committee was enabled to buy a higher quality of talent this year because of the increase in the price of season tickets, which was regarded as essential to keep the Rush county chautauqua on the same high plane that it has always been.

The chautauqua is an institution of which Rush county as a whole should be proud. It is an achievement in community effort which gives this county a mark of distinction because there are few chautauquas in the state of Indiana which are its equal.

The Rush county chautauqua was among the first independent assemblies in the state and it has prospered and thrived because it has had the unqualified support of the people of Rush county. They have patronized the chautauqua not only through a sense of community pride, but because they have found in it an opportunity for enjoyment which is not found any place else.

Those who have worked so diligently year in and year out to keep the chautauqua for Rush county are deserving of much praise, because they have had no other end in view than a desire to serve the people of the community and have been spurred on by a sense of community pride which seeks to make the Rush county chautauqua better than any.

The tall corn stalks have not yet been blamed for any automobile accidents this season, but it might be well to have a care at road intersections anyway.

Amusements

"The Passionate Pilgrim"

The story of "The Passionate Pilgrim", which is shown for the last time at the Princess today deals with Henry Calverly an author, a married man, who to protect his mother-in-law from the consequences of an involuntary crime, sends her away and is himself sent to prison for three years. His wife, her daughter soon dies. Assuming the name of Stafford, he begins life anew as a reporter on his release and is assigned to interview the Mayor, Tim McIntyre, who is in league with the trustees of the rich Cantey estate of which Miriam Cantey a beautiful but invalid daughter of the testator, is the guiding mind. When Stafford's story is published, McIntyre causes him to be discharged.

Miriam prevails upon Stafford to write a biography of her father and during that period they fall in love with each other. After many thrilling happenings their love romance comes to a happy ending.

The beautiful photography, evidenced in "What Every Woman Knows", a new William DeMille production which comes to the Princess Wednesday and Thursday is the work of Guy Wilky, one of the best known cameramen of the screen. There are some exceedingly vivid night shots which mark a distinct advance in screen photography.

Shirley Mason Pleases Crowd

Shirley Mason, the dainty William Fox star, was seen yesterday at the Mystic Theatre in "Wing Toy" and which is to be repeated today a Chinese story of more than passing interest. "Wing Toy" was written by Pearl Doles Bell, who also wrote "Her Elephant Man" and "Love's Harvest", two of Miss Mason's earlier successes.

The girl, Wing Toy, it develops, is not Chinese at all, but a Caucasian who was stolen by a drug-scraped crook to even up a grudge against the prosecuting attorney. She has been reared in Chinatown by her foster father, a powerful but unscrupulous Chinaman, Yen Low, who really loves her. When Bob Harris, a young newspaper reporter, meets her a love affair immediately develops, and though their apparent racial difference acts as a barrier between them for a time, all eventually ends happily and Wing Toy marries the man of her choice.

In the pretty and appealing character of Wing Toy, Miss Mason has a part that is ideally suited to her, and she makes of the little maiden a figure of unusual charm.

The supporting company has been carefully selected, and the direction by Howard M. Mitchell reveals more than capable stage-craft. One of the Oriental interior scenes is especially rich in detail. The story moves with unflagging interest, and until its climax is sustained with great skill.

DOING SPECIAL WORK

Mrs. Laura Wolverton has received word from her son Clayton that he is in Kansas City, Mo., and Kansas City, Ka., doing special work for his firm in Decatur, Ill. He expects to return to his home in Sandusky, Ohio the latter part of this week.

'Roadside spooners' have aroused the ire of Indianapolis officials, and steps might be taken against the pests in Rush county as well.

The Bergdoll investigation has ended in the house and has taken its place among other lost hopes.

It appears that the Canadians wilds is no place for a college president.

ANTI BOLSHEVISM IN VLADIVOSTOK

Kappelist in Control of The Government of Province Although Japanese Influence is Felt

NEW GOVERNMENT EXPANDING

What Outcome will be on Attempt to Establish Stability in Far East Only Time Will Tell

By CHARLES EDWARD HOGUE
(U. P. Staff Correspondent)

Vladivostok, (By Mail)—The tricolor of Russia floats over this city today and nowhere to be seen is the red emblem of communism that has been so much in evidence in the past. The Kappelist are nominally in control of the government of the Maritime Province, although the Japanese influence is distinctly felt, and the defeated radicals have taken to the hills, or remaining, have been disarmed.

Through an arrangement with the Japanese command the Kappelist soldiers are also giving up their arms, except for the 1,000 militiamen provided for in the pact signed in July, 1920, with the Zemstvo the then government. It is estimated that the Kappelist troops in an around Vladivostok number nearly 10,000.

With the overthrow of the Reds the conservatives under Kappel, who is doubtless working hand in glove with Semenov, have set up a new government which they describe as a "true democracy". The fact that the Kappelists are monarchists does not deter them from laying claim to the original title to everything democratic.

Almost every scheme conceivable has been tried out in the hope of restoring normal conditions here and the people are ready to take another chance any time in the belief that the future cannot be worse than the past.

The new Vladivostok government's territory is daily expanding and now extends to Spassk and Grodekovo.

That the business interests of the community are pleased with the turn that events have taken here cannot be doubted. The attitude of the business class was shown by resolutions adopted by the Chamber of Commerce, which appears to be a genuinely representative body, censuring the late local administration and declaring the overturn was due to the Communist methods of the Chita government.

What the outcome will be on this new attempt to establish stability in the Russian Far East only time will tell. Promises have been made to the people before and were broken. There is the Japanese factor, which is not to be ignored and the general unrest that has come after years of war and constantly changing forms of so-called government.

The popularity of San Marto Coffee, due entirely to its quality, has become so great that other grocers (some scrupulous, some otherwise) in their desire to get it are going out to other towns and buying it second handed in order to supply the demand.

These grocers are to be commended for their efforts to give their trade a really good medium priced coffee, and we are sure their customers will be quick to take advantage of the opportunity. If these men will extend their efforts to serve to other lines their business will require more of their time and they will not have to worry about what the busy stores are doing.

SEEK MATERIAL FOR GOOD TEAMS

Indiana Coaches in Athletics Build Future Teams For Championship Purposes.

MATERIAL IS FOUNDATION

Early Training May Develop Leading Team by Consistent Plans of Coaching

By HEZE CLARK
(Written for United Press)

Indianapolis, Ind., July 26—Building for future championship teams is what coaches, team managers and alumni of the Indiana colleges are doing these days. A coach must have material from which to build and develop a team before that team becomes a championship combination no matter in what line of true. Championship teams, football, baseball, basketball and track, in colleges are not made in one or two years, but are built in the many years leading up to the season the championship is won.

The boy starts baseball and football on the town lots or in a recreation park. The boy's arms gets the skill and development that makes it possible for him to throw a baseball where he wants it, or to shoot a forward pass. The high school coach develops this, and teaches the boy the inside tricks of the game. Then the boy goes to college and becomes the athletic star of his school.

No person knows this any better than the college coach. The friendship of the boys is cultivated by every college coach. Fred M. Walker, athletic director at DePauw university, is planning for the future. Walker made a great hit with the boys at Greencastle about two weeks ago when he opened the big Bowman gymnasium swimming pool. "Come next week and bring a boy friend with you," invited the new coach. The boys did. That means that 12 boys got a dip in the big swimming pool. Out of that number at least fifty will develop into athletics and they won't forget that free swim. They will remember DePauw university and everyone of those boys plan to enter DePauw some day.

Coach Walker is planning a big athletic carnival for the Putnam county boys next month. This carnival will include both track and field events and swimming races. This means that the boys from Putnam county will be DePauw university guests. Boys don't forget and some day those boys will wear the black and gold of the Tiger school.

Pete Vaughn, big husky coach at Wabash college likes boys. He often passes large numbers of the "kids" into the big football games at Crawfordsville free. The boys like Pete. The boys ob

Those Crawfordsville boys will some day be Wabash college athletes.

Pat Page, the Butler college director, sees to it that the boys who crowd around the gymnasium at Butler before the big games get their chance to see the games. Pat knows that the friendship of the "kids" is

all important to building successful athletic teams.

If a follower of athletics was ever at Notre Dame university he would see why Coach Rockne develops championship track, football and baseball teams. They start them in with a baseball in their hands at Notre Dame when they are about eight years old. These boys from the different halls attend the big games, and they see how the big fellows do it and they imitate the champion athletes, and some day develop into star track, baseball and football men. Then they learn to love Notre Dame and they go to that school. Indiana and Purdue university while not having the advantage of a prep school as part of the institution still are kind to the "kids" of the college cities of Bloomington and Lafayette. The coach don't like to see the future athletes peeking over the fence. They rather pass the boy in at the gate and win his friendship for the college for some day, who knows, the boy who goes in on a pass may be an All-American half back.

THREE PLAYERS MAKE CONFESSION AT TRIAL

"Black Sox" Players Tell Judge They Were Promised Immunity if They Told Truth

SEVEN PLAYERS ON TRIAL

Chicago, Ill., July 26—Three "Black Sox" players testified Monday that they confessed throwing the 1919 world series because they were promised freedom.

Eddie Cicotte, Joe Jackson and "Lefty" Williams confessed last fall to a grand jury to selling out to the gamblers. The three swore today that the state double crossed them by bringing them to trial after a promise of immunity.

The trio were the only ones of the seven former White Sox stars indicted for alleged conspiracy to confess. The three "Black Sox" told their story to Judge Friend while the jury was out of the room. The judge will rule on the basis of the testimony whether the confessions were voluntary and whether they can be introduced as evidence.

THIS TIME LAST YEAR
Cincinnati defeated Cleveland at Cleveland, 4 to 3, in an exhibition game.

Everything for QUALITY —nothing for show

THAT'S OUR IDEA in making CAMELS—the Quality Cigarette.

Why, just buy Camels and look at the package! It's the best packing science has devised to keep cigarettes fresh and full flavored for your taste. Heavy paper outside—secure foil wrapping inside and the revenue stamp over the end to seal the package and keep it air-tight.

And note this! There's nothing flashy about the Camel package. No extra wrappings that do not improve the smoke. Not a cent of needless expense that must come out of the quality of the tobacco.

Camels wonderful and exclusive Quality wins on merit alone.

Because, men smoke Camels who want the taste and fragrance of the finest tobaccos, expertly blended. Men smoke Camels for Camels smooth, refreshing mildness and their freedom from cigarette aftertaste.

Camels are made for men who think for themselves.

Camel

LEADERS SAY PEACE OFFER WILL NOT DO

Sinn Feiners Inform British Premier
That Offer May be Taken up in
New Conference

DE VALERA IS IN CONFERENCE

Dublin, Ireland, July 26—Sinn Fein leaders will inform the British premier that his peace offer is unsatisfactory but suggestion for further conferences will be included in the answer, it is learned on creditable authority today.

Meantime "president" De Valera continued conferences with individual leaders. He is also considering the possibility of a consultation with Premier Craig of Ulster before returning to London.

The United Press learned today on good authority that Premier Craig will accept an invitation to confer with De Valera if Sinn Fein leaders will accept the invitation in a satisfactory manner.

Popular feeling in both Ulster and Southern Ireland appeared to be conciliatory. It became known that Premier Craig withdrew from the London conference not because he was dissatisfied but because the negotiations were so nebulous that he

thought he was not needed as yet. He will return at any time, it was said.

NEW FEATURE FOR THE LOCAL SCHOOLS

Continued from Page One

almost convinced that better progress would be made by postponing the opening this year.

The Indiana state fair always falls on the week in which school opens and many pupils, especially those in the high school, attend, which prevents them from getting a good start on the year's work. There will be additional interference with the school program this year, due to the fact that the special election to vote on the proposed amendments to the state constitution, will be held on September 6, which comes in the week in which school generally opens. It may be the program throughout the county not to open the schools until September 12.

Mr. Cotton, who will introduce a physical education in the public schools here, served in the world war and has been around the world. He has had some experience in the teaching of physical education, but is not an athletic coach in any sense of the word.

His work will be confined to the grades and junior high school in the belief that the senior high school pupils will get their physical training in athletics. The physical education will consist of setting up exercises and other gymnastic work. There will also be contests, closing the school year with a field meet among the grade pupils, in all probability.

It is expected that this new course in the schools will meet with popular approval because there has been a demand among Rushville people for physical education in the schools the prevailing sentiment being that the grade pupils were neglected for the high school pupils who have an opportunity for physical exercise in their athletic contests.

In this connection, it was made known that Arle H. Sutton will return as science instructor and basketball coach, and A. M. Taylor will again be high school principal and instructor in mathematics. Other members of the high school faculty who are returning, are:

Mrs. Mary M. Glessner, English; Mrs. Edessa Innis, English; Miss Vivian Harris, mathematics; Miss Grace R. Whitsel, Latin; Mrs. Laverne Farthing, commercial course; Maurice E. Cook, manual training; Miss Henrietta Coleman, art; Mrs. Ruth S. Ray, penmanship; Miss Margaret Casady, arithmetic; Miss Nelle Casady, history and geography; Miss Ellen Madden, spelling.

LILLOOET, British Columbia.—Preliminary work is being carried out on the development of the Bridge River power site near here the total cost which will be \$30,000,000. With the exception of Niagara Falls and Victoria Falls this will be the biggest power site in the world.

WANTS TO RESUME TRADE WITH U. S.

Russian People Will Not Tolerate Annexationist Ambitions of Japan Imperialism

INTERVIEW WITH DIPLOMAT

Krassin Explains Why United States is Regarded With Especial Favor in Russia

By LLOYD ALLEN
(U. P. Staff Correspondent)

London, July 20—(By Mail)—Hatred of Japan and a desire to give America first place in the rich concessions of the far east were shown today by Leonid Krassin, the soviet's foremost diplomat.

In an exclusive interview with the United Press on the eve of his departure for Moscow, Krassin declared Russia is anxious to resume trade with the United States and to consider her the favored power in the development of Siberia and the far east.

"The Russian people," declared the trade commissioner will not under any circumstances tolerate or make its peace with the annexationist ambitions of Japan imperialism.

"And even though Japanese Jingoism are seizing Russian territory and Russian cities on the Pacific coast, this does not mean they will succeed in retaining those properties.

"Siberia and the far east have been and will remain Russian.

"The Russian government today would be ready to place at the disposal of the United States such privileges in Siberia and the far east for the development of natural resources and transportation lines as it would not under any circumstances grant to other governments."

Krassin proceeded to explain why the United States is regarded with especial favor in Russia. Much of the feeling, he said, was due to the similarity of the countries in area to the transportation problems they face and to a belief that Russia now is in much the same condition as the United States was at the close of the civil war.

"Russia desires the widest possible development of commercial relations with America," Krassin declared.

"In particular she wants the participation of American capital on the wisest scale in the development of agriculture, transport and industry. "All Russia's requirements are of a mass character and American industry which works on the principle of standardization and mass production is the most suitable for their satisfaction.

"Russia's colossal demand for standardized articles of various kinds is, perhaps, the market best suited to American industry.

Russia of all countries is most like America in the immensity of her distances and the richness of her natural resources. Only Americans can grasp the vast problems which await the solution of technical and economical science."

Krassin called attention to the condition of the U. S. at the close of the civil war. "That is Russia" he said, "exhausted by fighting her financial relations with the whole world extremely involved. Yet the American people found the energy for a magical reconstruction of economic life. Russia, too will recover. Participation of America in this reconstruction is particularly in the interests of both countries if we consider the importance of the Pacific problem to the U. S. and that undoubted rivalry which exists between America and Japan."

CORNS

Lift Right Off without Pain

Magie! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Doesn't hurt a bit. Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and calluses.

Obituary

Again, the grim reaper whose name is death; has taken from our family one of our loved ones. Virginia D. Thompson, daughter of John M. and Sarah E. Thompson was born November 7, 1848 being the youngest in the family of eight children, she grew to womanhood in the joyful companionship of her brothers and sisters, enduring her share of the hardships, which accompanied those pioneer days. In 1864 at the age of 16 she made the good confession of her faith in Christ and united with the Big Flatrock Christian church which faith she has kept and in those days was an ardent worker for the master. She has strewn kind words and sunshine in many ways along the pathway of life. In 1870, December 22nd who married to Isaac L. Boring, who departed this life in 1918. To this union were two daughters born, who are now Mrs. Grace Pate of Decatur county, Mrs. Ruth Morgan of Rush county, who with loving hands ministered to her during her last sickness which, was many months during which time she still possessed a jovial spirit and greeted her friends with a sunny smile, forgetting self even in suffering. Near the close of day July 14, 1921 an angel came and bore her spirit away into the great beyond, aged 72 years 8 months, 7 days, leaving two daughters to mourn the irretrievable loss of mother, two grandchildren, Berlin Pate and Robert Morgan, the loss of a dear grandmother, four brothers Andrew M. and Greenup Thompson of Rush county, Isaac Thompson of Owen county, Melvin Thompson of Grant county, one sister Mrs. Henry Hungerford of Rush county to mourn the loss of an affectionate sister and a good many other relatives and friends who will miss Aunt Jennie's kind words and sunny smiles.

We miss thee from our homes, dear mother
We miss thy kind and witting A shadow o'er our life is cast,
We miss thy sunshine of thy face.
We miss they kind and witting hand,
Thy fond and earnest care
Our home is dark without thee
We miss thee everywhere.
Farewell dear mother, sweet thy rest
Weary with years and worn with pain.
Farewell till, in some happy place,
We shall behold thy face again,
Tis ours to miss thee; all our years,
And tender memories of thee keep
Thine in the Lord to rest for so.
He giveth his beloved sleep.

CARD OF THANKS

We wish to thank all our neighbors, friends and relatives who so kindly assisted us during the illness and death of our dear Mother. Mrs. Ruth Morgan, Mrs. Grace Pate.

Reduce Those Dangerous Swollen Veins

Physicians are prescribing and hospitals are using a new and harmless, yet very powerful germicide that not only causes enlarged or varicose veins and bunches to become normal, but also reduces goiter, enlarged glands and wens.

Ask any first class druggist for an original two-ounce bottle of Moore's Emerald Oil (full strength) and refuse to accept anything in its place. It is such a highly concentrated preparation that two ounces lasts a long time and furthermore if this wonderful discovery does not produce the results anticipated, you can have the price refunded.

It is not wise for any one to allow swollen veins to keep on enlarging. Often they burst and cause weeks of pain, suffering, and loss of employment. Start the Emerald Oil treatment as directions advise and improvement will begin at once. Generous sample on receipt of 15 cents, silver or stamps. International Laboratories, Rochester, N. Y. Your druggist can supply you.

CHINESE LABOR NOW ON STRIKE

Paid Agitators Have Awakened China and Laborers Quit Work For Shorter Hours

DEMAND EIGHT HOUR DAY

Thousands of Working Men Are Expected to Organize and Affiliate With American Federation

By CHARLES EDWARD HOGUE (U. P. Staff Correspondent)

Shanghai, China, July 26--Paid agitators who have set the rest of the world on end through labor disturbances have awakened sleeping China and are today engaged in organizing what they hope will be a counterpart of the American Federation of Labor.

Twenty thousand working men are on strike in Canton today and nearly that many have quit their jobs in Shanghai.

Peking and Tientsin are to be the next points of attack and after that if the preliminary movements against the employer in the larger cities are successful, the plan is to extend the propaganda to the smaller communities throughout the country.

That foreign methods have been adopted by the Chinese leaders is evident and there is a strong suspicion among the authorities that a foreigner is secretly directing the campaign. But thus far all efforts to discover the identity of the "Man Behind the Throne" have been unavailing.

Laundry workers who commit mayhem on soiled garments by processing them through a course of rock-pounding in muddy water at three coppers per garment were the first of the local workers to rise in their wrath and demand better treatment from their bosses. An eight hour day, double pay for overtime, half-day holiday on Sundays and full pay for national and labor holidays were incorporated in their demands. The laundry owners were agast. They had never been up against a proposition like that before. Seldom had their menials dared to even raise their eyes to the higher-up, let alone demand or even beg better pay or working conditions.

"It can't be done," they wailed. "But it will be," grimly retorted the aroused employees. Whereupon they staged a parade demonstration and succeeded in calling out the carpenters, the masons, the cotton spinners and the sawyers. Daily other of the smaller craft are joining the ranks and what threatens to become a general strike is becoming more and more probable.

POSTPONE OPENING OF DRIVE

Ralston and Durbin to Launch Attacks Against Tax Changes

Indianapolis, Ind., July 26--The formal opening meeting of the Indiana Taxpayers Protective association in its campaign against the proposed taxation amendments to the constitution which was to have been held at Newcastle Friday night, has been postponed until next Monday night, Jacob Miltenberger, secretary of the organization announced today.

The meeting was postponed because of the inability of former Governor Samuel Ralston to be present. Besides Ralston former governor Winfield W. Durbin will speak. Durbin will speak at Muncie next Thursday at noon before the Exchange club of that city. Other meetings are being arranged.
